REFERRAL POLICY

BENEFITS OF REFERRALS AND KEEPING APPOINTMENTS WITH SCPECIALIST

1. There is a high probability your condition will be treated by the specialist
2. You will receive additional information to improve your health
3. Your primary care provider will receive feedback from the specialist on how to help you with your problem(s).

THE RESULT OF MISSING YOUR SPECIALTY APPIONTMENT

The results of missing your appointment without properly notifying the specialist's office are far-reaching

It causes:

1. Misses opportunity for the specialist to help you and your provider with your medical problem(s).
2. Disruption & inefficiency in the specialist's office because of wasted time, effort, and paperwork involved in preparing for a patient who does not arrive.
3. Loss of revenue for the specialist
4. Disrupted relationship between the specialist and you primary care provider.

PATIENT RESPONSIBILITY FOR REFERRALS

1. It is your responsibility to call the specialist and reschedule as soon as you are aware of any problems that will make you unable to attend your appointment.
2. It is your responsibility to call and reschedule a specialist appointment if you are a NO SHOW for a scheduled appointment
3. It is your responsibility to return calls to the specialist's office when the specialist is trying to call and schedule an appointment.

CONCEQUENCE FOR NON COMPLIANCE OF REFERRALS

For NO Shows, failure to cancel and reschedule an appointment if aware you cannot make appointments, your failed response to call from specialist office to make an appointment; there will be **NO** more routine referrals written for you by your provider for **one year.**

If you feel there is a misunderstanding regarding your referral you will need to make an appointment with your provider to appeal the decision of no more referral for one year.

*It is also my understanding that diagnostic laboratory and radiology services may be ordered as part of my medical care and that these services are not a part of the billing from the Lower Elwha Health Clinic. ☐ **By initialing this box I am stating that I have read and agree to the above text.**

PATIENT MEDICAL NO SHOW RULES

Every day we get many calls for appointments; from both established and new patient. Most of the time, our appointments spaces are already full. Each day, about 1/3 of the patients who have appointment do not keep them or do not call to cancel their appointments. These appointments could be used for other patients**. If you are a new patient, you should plan to be here 20mins before your appointment;** this provides adequate time to complete paperwork necessary for updating your medical record. **If you are an established patient, plan to be here 15mins** before your appointment time so that you record can be updated.

We must cut down on the number of patients who do not keep their appointments so there will be appointments available to treat others who need to be seen. The following ruled will apply:

1. You will be a **NO SHOW if**:
   - **You didn't show up at all.**
   - **You didn't cancel at least 24 hours before your appointment.**
   - **You did not check-in at the front desk before your appointment time.**
2. **You will be offered care on a work-in basis if:**
   - **You do not keep your first, regular appointment with us.**
   - **You are an established patient who no-showed three times within six months and did not call to cancel.** After your third "no show" visiting you will be notified by letter that you access to medical care will be on a work in basis.
3. **We are not refusing to take care of you.** However, you will be asked to come in at the beginning of the morning or at the beginning of the afternoon. You will not be given a regular appointment. **You can be seen by you provider on a work-in basis** only for a period of 60 days. If your provider is unavailable, you may need to be seen by another provider that day.
4. **To make things easier, you can call and leave a message which will cancel your appointment. The telephone number is (360)-452-6252.** The voicemail system will note the date and time of your telephone call.
